Ultimate in Patient Comfort

All of our Blood Donor Chairs feature an all-hardwood frame construction. No cold steel construction wrapped in 3" of foam, Dacor Blood Donor Chairs have springs, flexilators and layered foam for comfort, just like the most comfortable chair in your home. All foam, along with our top-quality, contract grade vinyl covering components pass California TB 117 on flammability. A wide selection of vinyl colors are available for your Blood Donor Chair, all treated to provide a protective coating against stains, abrasions, and bacterial growth. An adjustable actuator motor or manual lever provides smooth positioning. Easy adjustable arm pads, for patient and caregiver comfort.

TRENDELENBURG POSITION is now available on all Dacor Blood Donor Chairs except the Bariatric Blood Donor Chair. Because of the Dacor design, we are able to put your patient into a deep trendelenburg position without risk of the patient sliding out of the chair.

Ultimate in Patient Comfort

Model 4R4/5R5211BR

Bariatric Blood Donor Chair

The 4R4/5R5211BR is our Bariatric Blood Donor Chair. The motor, frame, base, springs and all remaining components are naturally heavier to help support any additional weight rating. The Bariatric Blood Donor Chair is 6" wider than our standard blood donor chair, and it has 2 added legs to the center of the base for extra support.

Constructed from the finest materials, the 4R4/5R5211BR Bariatric Blood Donor Chair features:

- Heavy duty hardwood frame construction is hand crafted and custom built to order. No cold steel construction wrapped in 3" of foam, Dacor Blood Donor Chairs have springs, flexilators and layered foam for comfort, just like the most comfortable chair in your home.
- High quality contract grade vinyl upholstery with patented antimicrobial/antibacterial coating to prevent from bacterial growth and stains. Easy to disinfect for patient safety.
- A linear actuator at either side of the head of the blood donor chair controls the motor allowing easy positioning from "head high-foot low" to "head low-foot high" or any position in between.
- All exposed metal parts are chrome plated for easy cleaning and durability.
